

## NEWS OF THE CITY

Francisco Garcia is a guest at the Angius.

P. McDonald of Tombstone is staying at the Angius Hotel.

J. W. Smith of Tucson is among the visitors at the Bessemer.

Mr. M. J. Brophy left on a business trip this morning on the eastern line.

R. W. Mussey of Marathon Texas is in town and is registered at the Bessemer.

We find Henkel, the jeweler, carries the finest line of watches, jewelry, etc. in the city.

Harris, the tailor, only charges \$2 to clean a suit of clothes, Tombstone canyon.

WANTED—Position as housekeeper, by a lady of experience. Apply at the Richelleu House.

W. T. Mead of San Francisco, California arrived yesterday and is a guest of the Bessemer.

Alec Tarwood of Naco was in town yesterday visiting friends and attending to his lumber business.

John Tracy came in from a trip to the Cananea yesterday, where he had driven some eastern visitors.

H. A. Schwartz arrived from Los Angeles a few days ago and has accepted a position with the Bank of Bisbee.

Ernest Byer and family came in from San Francisco California, two days ago and are residing in Lem Overlock's house.

Mrs. Strumm has transferred the lease in the building where her restaurant is to a Phoenix man who will open up a clothing store.

William Hobbs, of Tombstone, an old miner and well known, died in Tombstone yesterday at noon and was buried there at noon today.

A. Champagne the tailor has bought out A. Paul's tailors stock, and is now in a position to supply the public with first class suits of the latest style.

Mr. Pritchard has bought lots in the old Triplett orchard, one of the most eligible positions in the town, and will build a substantial residence there.

Mrs. C. M. Johnson will give lessons in embroidery, Kensington and Battenberg, on Saturday's from 2 to 4 p. m. Tyler house, Bisbee.

Mr. Spalding, who represents James Jaeger the well known barber and butcher supply house, was taking orders in town yesterday and today left for Nogales.

Mr. T. Walsh, a well known and respected old time resident of this county, came here from Phoenix Wednesday and went on to Naco, where he will visit his daughter, Mrs. Macomich.

The electric light will be ready for the use of the citizens and the lighting of the streets in sixty days from now. This is pretty quick work, considering the ground to be covered.

Mrs. James Welch, widow of the late custom house official, lost her little boy, who died a few days ago. Mrs. Welch was residing in Phoenix with her sister-in-law, Mrs. Platt.

Commencing December 1st the Bisbee Water and Coal company will deliver coal by their new electric elevated trolley burro system to all customers.

The twenty-four room lodging house now being erected on the ground up the canyon where Mr. Muirhead's house was burned down during last summer and not next to the Norton House as stated.

The new well drilled by the Southern Pacific Co., is now down 658 feet and flows about forty-five gallons of water per minute. Mr. Williams, the contractor, says that he is constructed to continue sinking.—Benson Press

Charles Harris begs to announce that he is continuing his business of tailoring and repairing at short notice at his residence in Tombstone canyon this side of the Castle Rock. That he is now in a position to make clothes and to repair and clean them at the cheapest rates and invites the attention of the public to his fine stock of fall and winter goods.

There was a meeting of the Fraternal Brotherhood last Wednesday night at which it was decided that the dance to be given on New Years Eve should be a masquerade ball. This change will be appreciated by our people who will look forward to this event and prepare their costumes according to the characters they seek.

W. W. Tinker died at Naco yesterday and was buried under the auspices of the Workmen today in Bisbee. The deceased is an old timer in this district. He was in the employ of the Railway company at Benson years ago, and came to Tombstone in '81. At one time Mr. Tinker was a wealthy citizen

of Virginia City and a man of consequence. His daughter is on the stage in New York and his wife resides with her.

FOR RENT—A fine pasture ranch comprising 13,000 acres of fine feed, well watered by streams and springs, fenced, very early. Has railroad through it with station on premises making shipping easy. Correspondence solicited. HOLLISTER ESTATE, 17-2w Santa Barbara, Cal.

Mr. and Mrs. Del Lewis were the recipients of a delightful surprise party tendered the popular Sheriff elect and his wife last Wednesday by a large number of friends of both sexes and all ages. A most enjoyable time was spent. This event was a farewell party Mr. Lewis being about to remove to Tombstone prior to taking his position as Sheriff of the county.

### MAN MISSING.

#### The Strange Disappearance of John Daniels.

John Daniels, who came into Bisbee with W. E. Syers, his partner, from Nelson, British Columbia, a few days ago and registered at the Norton House, is missing and cannot be found. Daniels walked out at the back door of the Palace Wednesday afternoon at about 3 o'clock, and was seen about 5 o'clock at the Library. Since then he has disappeared completely.

There seems to be no reason for Daniels to voluntarily absent himself as he has always lived with his partner on the best of terms, and no reason can be assigned.

Daniels was a steady, quiet and sensible man. The partners were expecting to engage in mining in this district and were looking into a deal offered them on a prospect.

He was an Odd Fellow in good standing and well known and respected in Nelson.

He was apparently in good health and of sound mind.

Daniels had in his possession a draft on the Bank of Montreal which was so arranged as to be payable at any bank, he carrying a letter of identification with him. He also had a considerable amount of cash with him.

The missing man is a Swede, about 40 years old; short, light complexion with light moustache. He wore a light suit.

His clothes and property are left at the Norton House, and every morning the rent for the room where he and Mr. Syers slept was paid in advance.

Mr. Syers is confident that Daniels had no reason to leave him without notice and that he would not do so.

The Odd Fellows here are aiding in the search for the missing man.

Syers says that he will continue the search for his partner until the mystery is cleared up.

### MISCELLANEOUS ITEMS.

The number of men employed on British railways is nearly 400,000.

Relatively to its population, Hartford, Conn., is the richest city in the union.

The cost of carrying a pair of shoes from New York to London by English steamers and railways combined is less than the cost of transit by rail from Liverpool to London.

At present the greatest distance over which electrical power is being transmitted by wire is 85 miles, being carried from a waterfall at Redlands, Cal., to the city of Los Angeles to run a street railway, to light the city and to furnish power for several municipal undertakings. The plant was set up in 1897. It has a capacity of 400 horse power and 33,000 volts.

The cutters of the great glove houses at Brussels and in France earn even higher wages than the cutters of the most fashionable tailors in London and New York. So difficult is this art of cutting gloves that most of the principal cutters are known to the trade by name and by fame, and the peculiar knives which they use in the business are so highly prized that they are handed down from generation to generation as heirlooms.

Some wrought-iron girders in a building in Chicago had to be cut during repairs to make room for a steel column, and it was decided to use electricity instead of the old method of sawing. The girders to be cut were six in number and 14 inches deep, with a one-inch web. To accomplish the work it was necessary to melt about 225 holes in the girders, and the actual time spent in cutting all was three and one-half hours.

Tree planting in the streets is to be encouraged in Baltimore. The municipal board of estimates has determined to abandon the absurd charge of 25 cents for the privilege of planting trees along the public streets, and to encourage the improvement by growing the trees, presenting them free of cost to those desiring a tree before their home, planting them and keeping them trimmed and in order. This plan has worked successfully in Boston.

Taking the Gold Cure. Another high-class Chinese villain has committed suicide by swallowing gold leaf, says the Chicago Tribune. Felled again!

## WEDDING BELLS

### Marriage of Miss Lizzie Akard and Rufus Kohler.

#### Wedding Solemnized Amid Flowers and Music—Two Popular Young People Are United.

A very pretty wedding was solemnized at the residence of Parker L. Woodman on Bisbee Heights last night, the high contracting parties being Miss Lizzie Akard and Mr. Rufus Kohler. The Rev. David Roberts performed the ceremony. The bride was given away by Mr. Woodman, her uncle.

The house was artistically decorated with smilax and California carnations, and the bridal couple were married beneath an evergreen arch, entwined with smilax.

Shortly after eight the bridal party entered the parlor, and after the rendition of Mendelssohn's Wedding March, which was played by Professor Shide, the happy couple were pronounced man and wife.

The bride was becomingly attired in an artistic creation of Nile green, trimmed with cream satin and applique. She carried cream carnations. The bridesmaid was costumed in a handsome broadcloth gown and she carried cream and pink carnations. Alfred Paul acted as best man.

The wedding presents were numerous, and many of them useful and very handsome.

After the ceremony an elaborate wedding supper was served, and the following guests enjoyed the feast: Mr. and Mrs. Parker L. Woodman, Mr. and Mrs. Spencer W. Clawson, Mr. and Mrs. C. M. Moon, Mr. and Mrs. H. C. Stillman, Mr. and Mrs. St. Claire, Mr. and Mrs. Geo. Thornton, Mr. and Mrs. L. D. Hunt, Mr. and Mrs. Tom Tate, Mr. and Mrs. Albert Watkins, Mr. and Mrs. Richardson, Mr. and Mrs. Phil Hart, Mr. and Mrs. Joe Muirhead and Mr. and Mrs. J. S. Taylor; Mrs. Hunt, Misses Lucy Harris, May, Stewart, Nichols and Hill; Messrs. Tom Devine, Jack and Ben Stillman, Burt Warner, Alfred Paul, C. C. Warner, Frank Oliver, John Huffaker, Harry Brown, Albert and Waldo Watkins and others.

### ADMISSION TO WEST POINT.

Superintendent Recommends That Standard of Educational Requirements Be Raised.

Col. A. L. Mills, superintendent of the military academy at West Point, has made his annual report to the adjutant general.

He devotes the greater part of his report to an earnest plea for the elevation of the standard of admission to West Point, to which end he suggests that the secretary of war be empowered to prescribe these requirements. He lays particular stress upon the fact that the entrance examinations at present correspond closely to the educational qualifications of pupils of the public schools just emerging from the primary grades. According to the commissioner of education, pupils of an average age of 14½ years in the public schools have these qualifications. Yet the average age of the applicant to West Point is above, and boys at that time of life should be equipped with high school education, including subjects which are not now a part of the entrance examination at West Point but which should be in the future. The superintendent says it would be in every way advantageous to have the relations between arithmetic and algebra and geometry made the same as now exists in the public schools. There is no desire that the entrance examinations should be made more difficult, but only that it should require what the public schools of the country supply.

### AMERICAN COAL IN LEAD.

Col. W. P. Rend Says Countries of Europe Must Look to This Country for Future Supplies.

Col. W. P. Rend has returned to Chicago from a two months' visit to Europe, confident that the nations of the old world will have to look to this country more and more for their coal supplies, and with a firm belief that the great natural resources of this country are certain to give it a steadily increasing prominence in the markets of the world.

"There is no doubt that American coal is to be in steadily increasing demand in Europe," he said. "The demand is there now, and there is a ready market for every pound of our coal. The English coal fields are becoming so difficult and expensive to work that it is impossible for that country successfully to compete with our coal much longer. Prices of coal there have doubled within the last 18 months, and so alarmed have the English people become at this condition, which carries with it a most serious menace to their steel and iron manufacturers, that leading English papers are advocating an export tax on coal in order to prevent the exhaustion of the supply and to protect their iron and steel makers from the further encroachments of the American makers."

## Clothing Matters

We are better equipped than ever to take proper care and give more perfect satisfaction in our Men's Clothing Department. To this end we have now in our steady employ a Tailor, whose sole business it is to remedy any defect or misfit, no matter how slight: to see that there is a just-rightness about every garment that leaves the department. This makes satisfaction doubly sure, whether you pick out a suit from our stock, or are more exacting—as you've a right to be—about a made-to-order suit.

In this connection we might add that we are prepared to press and clean clothes—properly, satisfactorily, economically.

## Trouser Lengths

One hundred and some odd pieces of woollens in trouser lengths from which to make selections. There's quite a difference between selecting trousers from small samples and full lengths. No chance of mistaking the quality or getting a false idea of the pattern. No such liberal stock of piece goods has ever before been shown in Bisbee. No two patterns alike that means exclusiveness; not much to pay—that's economy; no time like now—that means having the full assortment to choose from.

## Ves-Twos

It was a clever man who thought out Ves-Two. The idea is so clever it has been patented. Ves-Two is two vests in one; a reversible, turn either side out, fancy vest. One side is double breasted, the other single breasted. Fancy worsteds and silk vestings, each side strikingly different from the other. And the Ves-Two costs no more than you usually pay for one vest. We would suggest that you see these Ves-Twos anyway. From \$4 to \$7.50.

## Mackintoshes

and Rain Coats for Men or Boys. All sizes, all prices, and all equally good. Not all rain coats are rain proof. The coats we sell shed water like the proverbial duck's back. They are made right—that's why.

## COPPER QUEEN STORE
